

LED's go **SHOWBOWLING**

SOUND
VISION
LED SHOW

Trend LED and BCE introduce a spectacular new dimension in bowling, LED's go Showbowling...

LED's go Showbowling - created by Trend LED and BCE – is a new and spectacular showconcept, that turns your bowling center into a magical place to be. LED's go Showbowling is a mix of "sound", "vision" and "LED show" in such a combination that all your guests will get excited. It creates a new world full of new possibilities for interaction with your customers.

Vision

Have you ever experienced the feeling of throwing a strike in a giant Cinema. Well that is the feeling you will enjoy with the vision part of LED's go Showbowling. Large projection screens behind the bowling lanes showing the latest videoclips, or the match of the day. Vision turns your bowling center into a multi-screen cinema.

Sound

The cinema with extreme high vision quality will be supported by Cinema quality sound. Speakers will be installed in such way that your visitors will feel the sound and experience the beat. This sound quality can be achieved in all zones of your facilities. With the combined quality of sound and vision you will have cinema level entertainment in your bowling.

All the more reasons to get our LED's go Showbowling in your bowling center..

Customize

LED show effects will create the mood that makes your customers visit a long one. All parts of your bowling facilities will be involved in this LED show concept. A mix of general LED light and the LED show effects is also possible. If you wish your bar to change colors or the entrance of your center, no problem, we will make it happen.

The combination of exclusive atmosphere and emotional show lights will turn your bowling center into "the place to be".

LED lighting savings

With LED general lighting you can save up to 80% on your energy costs. With these savings you are able to finance most of your LED's go Showbowling investment.

All our LED lighting products are manufactured in the EU and of the highest quality. As one of the few LED specialists in the EU we offer you a 5 year guarantee on all your LED lamps and luminaires.

LED show

Full color LED luminaires will change each bowling lane in different colors and even color waves can run from lane to lane.

Our Strike Animation System will support strikes with impressive LED effects and we turn your players area from mood to mood with design LED solutions.

We will include professional full RGB lasers to the show and add exclusive stylish color effects to the remaining areas of your bowling center. The LED show effects will equal the exclusivity of prestigious events and will turn your bowling center into a magical experience.

White Lanes

BCE brings you a new revolution in lane technology like you have never seen before; white lanes. A USBC approved synthetic lane, but with a revolutionary new color to create spectacular effects to your center in a way it has never been done.

The result is an optimal bowling lane that meets all required technical specifications for bowling performance and sliding characteristics on approach lanes. A synthetic lane with the elegance of wood and on demand any other shade of color, glow effect and light system.

Trend LED and BCE

Trend LED Lighting BV and BCE BV are exclusive partners in the LED's go Showbowling concept. By combining their unique products, a spectacular and exclusive showconcept is born!

The right choice

Our well trained and experienced consultants and technical specialists will create the best thinkable solutions for your desires and demands. We will take care of the necessary installation and technical support. One Stop Shopping and 1 responsible partner for your complete installation.

Experience

Through our many years of experience with bowling installations and LED systems and solutions we have a good feeling for design and quality. Also we have a broad range of bowling related solutions and LED lighting, sound and vision products of A brand manufacturers for you available.

LED's go Showbowling for every budget

In order to serve all our customers we have created 2 different concepts for the installation of LED's go Showbowling. You can start with the basic installation and add or change certain products in time to expand to the exclusive version. Of course you can start with the more impressive version and go straight to the Top of the Bill with the exclusive LED's go Showbowling. Whatever your choice will be, it will be the right one.

Contact us

Call us or mail us and we will arrange a meeting at your place and show you how you can explore new horizons with LED's go Showbowling. Or visit us on www.trendled.eu or www.bcebowling.com and see and learn how other bowling centers experience their LED's go Showbowling.
